PETROLEUM AND MINING STOCKS .- FIRST BOARD.

THURSDAY, Sept. 19-P. M.

Gold is lower, and closes at 1441, after selling at 1451. The clearings at the Gold Exchange Bank were \$68,096,000, and the balance, \$2,265,901.

Government bonds were heavy and lower on the new issues, and steady on the 5-20s of 1862. State and railway bonds were firm. Miscellaneous shares were heavy and lower. Western Union Telegraph sold at 42: Pacific Mail was heavy at 1412, and Atlantic Mail sold at 1112. The stock market opened with more firmness, but soon broke under a pressure of cash stock, and lower prices were made on the general list. The variations of the day are most clearly shown by the official list of sales. After the regular session, under extended calls for more margins, many weak holders were sold out. At the Second Board the market was heavy, and after the call, under great excitement, lower prices were made-Erie, 621; Michigan Southern, 771; North-Western Common, 39; North-Western Preferred, 641-and the market closed excited and irregular at quotations. The closing prices were: New-York Central, 1051 @ 106; Erie, 63/@ 634; Reading, 1014@1014; Michigan Southern, 784@ 781: Cleveland and Pittsburgh, 831; Rock Island, 1011@1011: North-Western, Common, 401@401; North-Western, Preferred, 65@651; Fort Wayne,

Money on call is 7 per cent, and in many cases extra rates in the form of commissions are paid. Commercial paper is 7 per cent for best names. There is a good deal of changing of loans, and many peremptory demands for payment, without regard to interest. Banks which have loaned their deposits at 3 per cent upon speculative shares fear that by the rapid wasting of margins these call loans may become permanent investments, and they be in turn unable to respond to the drafts now making by their country

dealers. Freights are dull. The engagements to Liverpool, per steamer, are 25 tuns Wood at 25s, and by sail, 300 bbls. Rosin at 5s. \$\forall 280 lb, and 200 hhds. Tobacco at 27s, 6d. To London, 300 tuns Oil Cake, in bags, at 17s., and to Glasgow, per steamer, 25,000 bush. Wheat

The transactions at the Sub-Treasury were; Receipts for Customs, \$420,000; Receipts for Gold Notes, \$56,000; Total Receipts, \$4,771,267 33; Total Payments, \$3,509,083 18; Balance, \$123,975,060 05.

Speculation in Wall-st. has received a sharp check through the advance in the rate of interest from 5 to]

7 per cent. Great pains are being taken by some writers to assure operators that, legal rates being established, capital is sufe to be forthcoming, and that dealing for an advance is the sure road to fortune. Now the facts are that the recent advance in speculative shares has been the result of cheap money and abundant crop prospects, used with great boldness and success by daring gamblers to inflate prices, but not to tempt new operators into the field, upon whom they could unload and realize their profits. In this they were defeated by actual statements as regards the crops, and the unusually early drain for currency to move the crops. These facts, in connection with the payment of the compound notes and the cancelation of plain legal tenders, gave an activity to money which has defeated their calculations, and established losses where large gains were looked for. The demands for currency to move the grain, hay, and cotton crops for the next 90 days must be supplied from the Atlantic cities, where alone money has been in any degree cheap, and higher rates will be paid. Parties wanting capital to move the crops, are ready to pay extraordinary interest, in the way of commissions, an example which must be followed by borrowers upon stocks. It is, therefore, reasonable to assume that

sole use of cheap money, may suffer in market price, now that the commercial operators of the country make their demands upon financial institutions. The following will show the Eastward movement of Flour and Grain from Lake ports for the week

Important negotiations have been concluded in respect to the line of railroad between St. Louis and Indianapolis. The Terre Haute and Indianapolis Railway Company having declined to enter into the arrangement desired by the Eastern companies, a corporation under the name of the Indianapolis and St. Louis Railroad Company has been formed, under the general railroad law of the State of Indiana, to construct another line of road between the cities of Indianopolis and Terre Haute, connecting at the latter place with the St. Louis, Alton and Terre Haute Railroad.

The Cincinnati Gazette says:

There is an unusual degree of activity in money to day.

Local checking is heavy. Country banks are drawing on
their balances, and the Treasury Department is checking
on the depositories: this, together with a brisk demand
for discounts, is causing the market to work close at 8a
10 per cent on strictly first-class names, and the lines are
drawn so close that a large part of the paper offered is
excluded from this grade. In the open market money is
firm at 1923 per cent on prime mercantile paper, and on excluded from this grade. In the open market money is firm at 10w12 per cent on prime mercantile paper, and on the street higher rates are obtained for short loans. Exchange is in active demand, and firm at par buying and 50c, selling. There is little doing in gold, the receipts being light, but there is a good demand for it, and prices are higher, closing at 144w1442 buying, and 1442 selling. Silver is firm.

LIVE STOCK MARKETS.

Thursday, Sept. 19.—The fresh cattle today are 217 at Hudson City, making 3,261 at that market alone; 184 at Communipaw, amounting to 2,755 there, and 14 fresh at One-hundredth-st. on Monday, and we have the almost unprecedented number of 8,145 bullocks on the market so far this week. This tells why owners have to sell at \$2 per head less than the cattle cost in Buffalo, and why the 42 Kentucky cattle bought by R. Barnes in Pittsburgh at 8c, per pound, gross, are offering at Communipaw at 7½c, with no takers. Another lot of 72 head which weighed 1,650 pounds at Pittsburgh, where they cost \$5.40 per cwt., were making money the wrong way—selling, 10 of the tops for \$51 each, 12 others for \$12 per head, with only \$24 offered for the balance. In fact there is very little trade at any price. A lot of 117 Cherokees were bringing 10-212c, on 6-24 cwt., while a mixed lot of ordinary fillinesis cattle are reported selling at Hudson City for 12-214c, with a small lot of Wyoming County steers, cows and heifers, 4-24 cwt., at 8-21c., two dry cows going at \$50 for the pair, with a yearling at \$18. Washington Market is even worse than yesterday, a butcher boasting of getting two fore-quarters of not the freshest beef for \$1.50. Heef has been selling all the way from 5 to 13c, per pound to-day, with numion at 3-5 s.

Sheep are tending downward, with 1,300 at Fortieth-st. to-day (3,160 yesterday), two cars fresh at Communipaw, and 13 cars at Hudsen City. Most of the sales are at 4-2 for sheep, and 6-3-3c, for lambs. At Communipaw one car coarse wool, medium flesh, \$7 th 6, sheep, brought \$4,25c, and lambs 7-37 k, or mostly by the head at \$2 10 a \$8. week, in mostly ewes, at 4c; also, a car fra, lambs, 52 m, medaun, at \$3.50 p head. At Hudson City one car thin State sheep of 70 m, brought \$3.25, while 430 Pa, lambs of 55 h were sold for \$7.5 P head. At Portielh-st., as elsewhere, there are too many thin sheep and lambs, w

Steamship Herman, Engle, Perria (13th).

MEMORANDA.

Ship Kearseng, from New-Orleans for Boston, before reported on fire at Newport, has been pumped out, so that she now floats. She will be towed to Hoston soon. The ship is badly burned in the lower hold, the fire having evidently been smouldering during a greater part of the reliage.
